

# FANCY SNOWMAN

UGLY CHRISTMAS SWEATER

## WHAT YOU'LL NEED

- Branches
- Red sweater
- Colored Sequins
- Scissors
- White, black and orange felt
- Glue gun

## DIRECTIONS

1. Cut out three white felt circles. A good idea is to place three different cup sizes face down for circle reference.
2. Take your black felt and cut out a hat shape.
3. Glue gold sequins onto the hat and add it to the top of the first circle, slightly slanted.
4. With the same black felt material, cut out small eyes and a mouth.
5. Next, take your orange felt and cut out a thin rectangle for the nose.
6. Place all three circles onto the sweater and have them overlap just a bit.
7. Add a dot of glue to the two branches and tuck them underneath the white felt on both sides to create arms.
8. Now, it's time to decorate. Take your sequins and add three to the middle circle. Once complete, place sequins all over the front of the sweater in any pattern you desire.
