SLEIGH ALL DAY

UGLY CHRISTMAS SWEATER

WHAT YOU'LL NEED

- Iron-on white letters
- Black sweater
- Precision knife
- Iron

- White fabric paint
- Reindeer stencil
 *(the medium was used for our example)*
- Paint brush

DIRECTIONS

1. Download the stencil and print.

2. Decide which stencil size you want to use and cut around it. Make sure you leave enough white space around the edges of the dotted area.

3. With an precision knife, carefully cut along the inside of the stencil. You'll want to cut out the dotted area so that you have a hollow reindeer left.

4. Position where you want the reindeer on the sweater and tape along the edges of the stencil to keep it in place.

5. Fill in the inside of the stencil with white fabric paint.
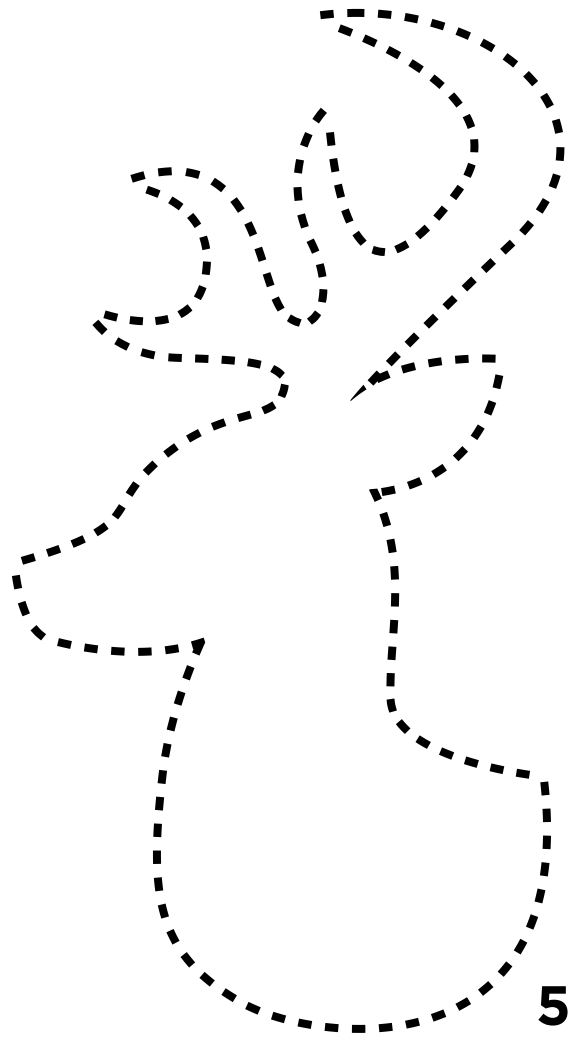

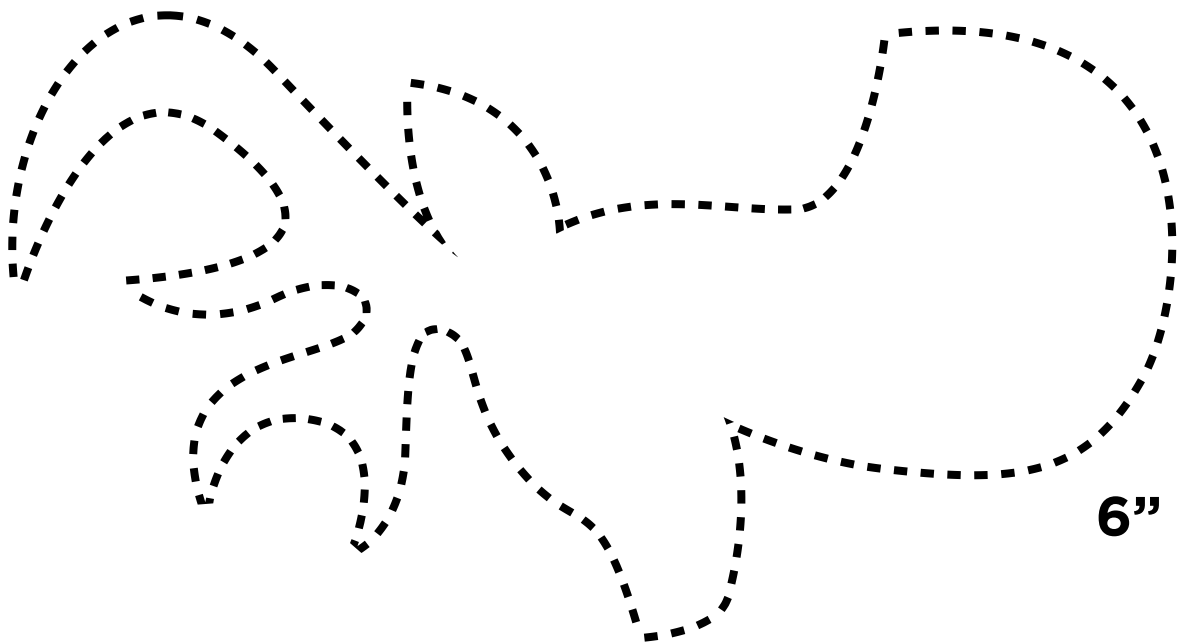

6. Iron each letter, one by one, until completed.
